Nishwanth Yarra

Hyderabad, India | +91 7386419173 | nishwanthyarra@gmail.com
Portfolio: nishwanth2809.github.io | GitHub: github.com/nishwanth2809 | LinkedIn: linkedin.com/in/yarranishwanth

Professional Summary

AI & Full Stack Developer with hands-on experience building intelligent systems using Machine Learning, Computer Vision, NLP, and modern web technologies. Experienced in developing end-to-end software solutions ranging from AI-powered applications to scalable full-stack platforms. Mentored 100+ students in developing real-world startup projects through the Centre for Innovation & Entrepreneurship (CIE). Strong foundation in Java, Python, Data Structures & Algorithms, REST APIs, and software engineering principles. Passionate about building impactful products and solving real-world problems through technology.

Skills

Programming Languages: Java, Python, JavaScript, SQL, C
AI & Machine Learning: Machine Learning, Computer Vision, Natural Language Processing (NLP), Speech Processing, TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV
Full Stack Development: React.js, Next.js, Node.js, Express.js, Flask, FastAPI, HTML5, CSS3, Tailwind CSS, REST APIs
Databases & Cloud: MongoDB, Firebase, SQLite, Vercel, Render
Data & Analytics: NumPy, Pandas
Tools & Platforms: Git, GitHub, Linux, VS Code, Postman, Figma
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering

Professional Experience

Full Stack Web Development Intern Apr. 2026 – Present
ElevanceSkills *Remote*
- Developing Twiller, a social media platform featuring audio tweets, subscription services, and security automation workflows.
- Designed and developed scalable REST APIs supporting authentication, payments, and social platform features using Express.js and MongoDB.
- Integrated Razorpay payment gateway and Firebase authentication with account recovery mechanisms.
- Collaborated within Agile development teams to deliver production-ready software solutions using Next.js, Express.js, and MongoDB.

Student Mentor & Council Member 2025 – Present
Centre for Innovation & Entrepreneurship (CIE), Sreyas Institute of Eng. & Tech. *Hyderabad, India*
- Mentored 100+ students in designing, developing, and deploying real-world startup and technology projects.
- Conducted technical mentoring sessions on Artificial Intelligence, Machine Learning, Full Stack Development, APIs, Git/GitHub, and Software Architecture.
- Guided student teams from idea validation to working prototypes and deployable solutions.
- Evaluated project progress, reviewed technical implementations, and provided solutions to development challenges.
- Organized and contributed to workshops, hackathons, innovation challenges, and entrepreneurship initiatives as an active CIE Council Member.
- Collaborated with faculty mentors and industry professionals to strengthen the innovation ecosystem within the institution.

Projects

Twiller – Social Media Platform | GitHub | Demo | *Next.js, Express.js, MongoDB, Firebase, Razorpay, Tailwind CSS*
- Engineered a full-stack social platform supporting audio tweets, premium subscriptions, and advanced account security.
- Designed scalable backend APIs and responsive frontend components, integrating Razorpay and Firebase MFA.

Brahmi Script Recognizer | GitHub | Demo | *React.js, Flask, TensorFlow, Keras, OpenCV*
- Developed an AI-powered web application capable of recognizing ancient Brahmi script with 94% classification accuracy.
- Implemented image preprocessing, segmentation, and CNN character recognition to deploy as an accessible web platform.

Deepfake Detection System | GitHub | *Python, PyTorch, OpenCV*
- Built a real-time deepfake detection pipeline with 92% detection accuracy through frame-level analysis and live inference.
- Implemented an interactive interface for practical media authenticity verification.

AI Medical Report Analyzer | GitHub | Demo | *React.js, Node.js, OCR, NLP, REST APIs*
- Developed an intelligent system that converts complex medical reports into simplified patient-friendly summaries.
- Reduced report comprehension time using OCR and NLP-based analysis to generate concise insights.

Education

Sreyas Institute of Engineering & Technology Hyderabad, India
Bachelor of Technology in Computer Science & Engineering (AI & ML) *Expected Graduation: 2027*

Certifications

- Oracle Cloud Infrastructure (OCI)
- Generative AI
- Frontend Web Development (Udemy)
- Full Stack Development (Simplilearn)
- Java Programming (Udemy)
- Python Programming (Udemy)
- SQL (Simplilearn)
- Kali Linux Basics

Achievements

- Mentored 100+ students in developing startup-oriented software and AI projects through CIE.
- Built and deployed multiple AI-powered and full-stack applications involving Computer Vision, NLP, and Web Development.
- Solved 75+ Data Structures & Algorithms problems on coding platforms.
- Active contributor to technical communities, innovation initiatives, and entrepreneurship programs.
